

## Print

Children require a developing understanding of why, where and how print is used?

## Print Around Them

Draw their attention to print on packaging, labels, signs, logos, captions, menus and on tablets.

## Write Lists

Encourage your child to 'write' their own shopping list.

## Read Letters to Them

Write a letter to your child and share with your child when delivered. Let them 'write' a letter to a friend to post.

## Signing Cards

Encourage your child to sign their name in a birthday card.
